Screening of **"On the Foothills of the Himalaya"**

A documentary on Cuba's internationalist mission in Pakistan after the earthquake in 2005

Saturday, July 11

10:15 am

Ryerson University

245 Church Street, Room #3

The Cuban Revolution of 1959 made the **availability of healthcare for all** a pillar of its objectives and, as a result, Cuban healthcare internationalists have gone to any corner of the earth to assist anyone in need of medical attention since the very beginning. In times of crisis due to natural disasters (such as hurricanes, storms and earthquakes) and pandemics, Cubans have been in the forefront. They comprised the largest brigade of medical teams fighting the Ebola virus in West Africa and, currently, they are treating the victims of the earthquakes in Nepal. But that's not all, as Cuba has also provided scholarships to train thousands upon thousands of humble youth from around the world to become medical doctors.

United

Dedicated to

Workers*

(one block southeast of

On July 26th, 1953 a group of brave young Cubans, led by Fidel Castro, attacked the Moncada and the Carlos Manuel de Céspedes garrisons, symbols of the tyranny and occupation of Cuba under the U.S. puppet regime of Batista.

Although the attack was militarily defeated, it raised the banner of struggle, which would lead to the victory of the Cuban Revolution on Jan. 1st 1959.

This year we cheer the return of the Cuban Five to their families and their homeland and we dedicate this year's celebration to the selfless Cuban internationalist healthcare workers who courageously volunteered to battle the Ebola virus in Western Africa and the Cuban internationalist education workers whose hard work and dedication have taught more than eight million people throughout the world, how to read and write.
